SECRETARY'S BUREAU

Re: Petition of Senator Dinniman for Interim Emergency Relief; Docket No. P-2018-3001453; Senator Dinniman v. Sunoco Pipeline L.P.; Docket No. C-2018-3001451

Dear Rosemary:

As Huntingdon County Commissioners, we have come to appreciate the value that a positive job market has in many facets of life. Projects like the Mariner East benefit our County and State.

Our County is curious about the order made by Administrative Law Judge Barnes to overturn the Commission's May 3rd 5-0 ruling to allow Mariner East 1 to resume service. A consensus decision made by the Board of Commissioners should be final.

Our local experience in working with Sunoco has made a real effort to assure safety of our County, and provide additional education opportunities to our first responder's community.

Representatives from the company have been in constant contact with us, communicating every step of building the pipeline. Along the way, there have certainly been challenges and delays, but with constant communication, nothing has been a surprise.

This project and other natural gas infrastructure projects have given our region of Pennsylvania a shot in the arm by using local labor and subcontracting to area companies.

The order made by Judge Barnes has created uncertainty in Pennsylvania's regulatory environment, which could prevent other major industry players from looking at Pennsylvania. This would lead to a less than ideal situation for our County and region.

Therefore, we ask that the Commission reinstates their decision, and allows the Mariner Project to resume.

Sincerely,

Huntingdon County Commissioners

Mark A Sather, Commissioner

Scott Walls, Commissioner

Jeffrey Thomas, Commissioner
